DETAILED ACTION

Allowable Subject Matter

The indicated allowability of the claims is hereby withdrawn in view of the rejections set forth below.

Election/Restrictions

Applicant's election with traverse of Group I in Paper No. 11 is acknowledged. The traversal is on the ground(s) that all of the claims were examined in the original application. This is not found persuasive because examination of claims in an original application does not preclude a restriction requirement from being made in a RCE application if appropriate as in the instant application.

The requirement is still deemed proper and is therefore made FINAL.

Claims 60-88 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in Paper No. 11.

Claim Rejections - 35 USC § 112

Claims 40,51,52 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 40, what does 'or the like' include? In claim 41, lines 2-3, there is no proper antecedent basis for 'said one or more complementary protrusions'. In claim 52, what apparatus is being positively claimed?

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 32,33,52,55,56,89-92 are rejected under 35 U.S.C. 102(b) as being anticipated by Biersack. Note particularly figure 5 which shows a cutting plate having both cutting blades 6 and macerating means 33.

Claims 32-35,42,52,53,55,56,89 are rejected under 35 U.S.C. 102(b) as being anticipated by Lechner. Note particularly figures 1 and 2 which show a cutting plate including blades 48 and macerating means 44.

Claim Rejections - 35 USC § 103

Claims 34-51,57-59,93 are rejected under 35 U.S.C. 103(a) as being unpatentable over Biersack. The limitations of these claims would have been obvious design choices only once the basic apparatus was known. For example, providing access to a housing interior via pivoting means is well known in the art and of no patentable merit.

Claims 36-38,54,57-59 are rejected under 35 U.S.C. 103(a) as being unpatentable over Lechner. The limitations of these claims would have been obvious design choices only once the basic apparatus was known. For example, providing access to a housing interior via pivoting means is well known in the art and of no patentable merit.

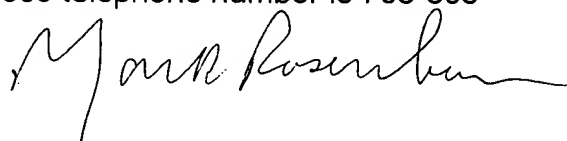

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
